Hiring Manager
OneTrust

Dear Hiring Manager,

I am excited to apply for the Principal UX Designer position at OneTrust. With 30 years of design experience in UX/UI design and a strong background in creating B2B products, I am eager to bring my expertise in designing user-centered, innovative solutions to your team.

In my previous roles, I have led cross-functional teams to deliver high-quality design solutions, focusing on consistency, quality, and efficiency. At HamiltonBerchman, I designed over 1,000 successful projects, ensuring accessibility and usability were at the forefront of every design. My experience in leading design processes, mentoring teams, and conducting user research has equipped me with the skills to shape project goals and deliver impactful solutions.

I am particularly excited about the opportunity to mentor and collaborate with the design team at OneTrust. My ability to conduct independent research, understand customer needs, and de-risk assumptions has been instrumental in crafting deep understandings of customer and business needs. I have a proven track record of advocating for UX processes across stakeholder touchpoints and protecting the intended customer experience.

As an INFJ, I thrive in collaborative, mission-driven environments. My intellectual curiosity and passion for continuous learning drive me to stay updated with the latest design trends and best practices. I am committed to contributing to OneTrust's mission of empowering organizations to drive innovation responsibly while mitigating risks.

Thank you for considering my application. I look forward to discussing how my skills and experience align with OneTrust's goals and how I can contribute to your innovative and diverse team.

Cheers,
J. Bert Mahoney
