Dear Hiring Manager,

I am writing to express my interest in the **UI/UX Designer** position at **2barrells**, as advertised at <https://bit.ly/43TRDuu>

With over 25 years of experience in digital interface design, finding someone of similar experience level will take a while to find another comparable candidate.

I can contribute to your team, move the needle for your customers, and help you achieve your goals.

My decades of experience across a wide range of industries and occupations provide me with a priceless internal reference catalog I use to identify potential project opportunities and pitfalls before they are issues.

I have experience at the conceptual, strategic, and implementation level for any form of digital project — custom software, mobile applications, websites, email marketing, etcetera.

I am easygoing, flexible, and unpretentious — and I am not my work; constructive criticism is essential to creating the best result.

I am excited to bring these skills to **2barrells** and contribute to the team's success.

Thank you for your time and for considering my application. I am excited to discuss my qualifications further and learn more about **2barrells** and the **UI/UX Designer** role.

Sincerely,
Bert Mahoney
