Dear Hiring Team,

I'm interested in the **Floor Support Artist** position at **Lakeshirts**. I moved to Longmont last October and have been looking for an artistic opportunity. With a solid foundation in graphic design and extensive experience across diverse mediums and techniques, I bring extensive experience, creativity, attention to detail, and a collaborative mindset—qualities I believe are essential to contributing to your team's exceptional work.

In the early stages of my career, I developed expertise in design with Adobe Creative Suite, Printing Press Checks, and Photo Shoots. As the Director of Production Design at Jensen Design, I had the privilege of working with high-profile clients such as Canon USA, Toshiba, and Pioneer. I established pre-press and production standards that became benchmarks for local commercial printers. This role gave me a deep appreciation for quality assurance, consistency, and efficiency—skills that are invaluable when working with globally recognized brands.

Over the years, I've tackled a wide variety of creative projects, transforming ideas into production-ready designs that strike a balance between artistic flair and practical production needs. This experience aligns closely with **Lakeshirts'** reputation for innovation and quality, especially considering your impressive achievement of creating over 200,000 new designs in just five years.

I've worked with multidisciplinary teams to bridge the gap between art and production, identifying and addressing inconsistencies to ensure seamless execution of creative ideas. My adaptability and clear communication style have consistently helped me contribute to high-quality outcomes, which is why I'm interested in the opportunity to uphold and enhance the standards that make Lakeshirts exceptional.

What draws me most to this **Lakeshirt** opportunity is your commitment to creativity, culture, and teamwork. Joining a company that values innovation, empowers its employees, and fosters a sense of community is something I'm looking for. I'd like to bring my skills, experience, and passion to the Floor Support Artist role, helping Lakeshirts continue delivering outstanding designs to your customers.

Let's discuss how my background and skills can contribute to your team. Please don't hesitate to reach out to me at **720-483-2568** or **hello@bertmahoney.com** to arrange a meeting time. Thank you for your time and considering my application.

Be well,

J. Bert Mahoney
