Dear Hiring Manager,

I am thrilled to be applying for the Senior Manager, Product Design role with Smartsheet. As a seasoned Lead Digital Experience Designer with over 28 years of experience, I am passionate about finding innovative solutions to complex problems and creating exceptional digital experiences. Smartsheet's mission to empower everyone to improve how they work aligns perfectly with my values and I am eager to contribute to this exciting opportunity.

My extensive experience in design thinking, design systems, and using artificial intelligence sets me apart as a strong candidate for this role. In my current position at HamiltonBerchman, I have consistently led successful digital projects, including website design, mobile and desktop applications, and marketing initiatives, by identifying and addressing key issues. I am also well-versed in conducting remote meetings and collaborating with a diverse range of leaders and clients globally.

At Hatch Early Learning Inc., I streamlined user interaction by creating a comprehensive design system and integrating artificial intelligence into the research and creativity process. The result was a significant acceleration and enhancement of design outcomes. With my experience in managing teams and delivering high-quality outputs, I am confident in my ability to lead and grow a team of Product Designers at Smartsheet.

In addition to my technical skills, I am also an effective communicator and a strong advocate for the end-user. I am excited about the opportunity to establish, articulate, and drive the vision for the future of Design at Smartsheet and to work closely with product teams to launch new features that truly meet the needs of our users.

I am impressed by Smartsheet's commitment to creating a diverse and inclusive workplace and I am eager to contribute to shaping the culture of the Design and Product organization. Thank you for considering my application, and I look forward to the opportunity to discuss my qualifications further in an interview.

Sincerely,
Joseph Mahoney
