Hiring Manager
Health Care Agency Public Health Department
County of Ventura
State of California

Dear Hiring Manager,

I'm writing to express my interest in the **Office Systems Coordinator III** position, as advertised. With my extensive background in digital design user experience and a proven track record in collaborating with engineering across various industries, I would like to learn more about this role.

At HamiltonBorchman—a company of one, just me—where I've been consulting as a Human-Centered Lead Digital Experience Designer since 2005, I've spearheaded over **1,000 digital projects**, ranging from websites, web-based applications, and mobile apps to digital branding and marketing initiatives.

My focus on creating user-centric digital experiences has solved complex business problems and significantly enhanced client satisfaction and revenue growth. My tenure at Hatch Early Learning Inc. and Art+Logic Inc. further honed my UX/UI design, problem-solving, and project management skills, making me adept at working with cross-functional teams and managing large-scale projects.

My approach aligns perfectly with your need for a problem solver who collaborates effectively across teams. I am particularly excited about the opportunity to contribute to your department, where I can leverage my expertise in human-computer interaction and artificial intelligence. My extensive work in various sectors, including healthcare, legal, and technology, has equipped me with a diverse skill set and a deep understanding of varying user needs.

I am particularly drawn to the County of Ventura's commitment to continuous learning and professional development, as evidenced by the educational incentives offered. My pursuit of knowledge in the latest technologies and industry trends has continued since 1992.

I am excited to join the Health Care Agency Public Health Department and contribute to its vital work. Thank you for considering my application. I look forward to discussing how my background, skills, and experience make me a potentially ideal fit for this role.

Kind regards,
Joseph 'Bert' Mahoney
